Monitoring, Routine (DBP), Major/Chlorine

The City of Chillicothe water system PWS ID 0990001 has violated the monitoring/reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This violation occurred in the monitoring period 4th Quarter of 2023.

We will get these monitoring reports turned into TCEQ.

If you have any questions regarding this violation, you may contact Nicky Richter at (940) 852-5211.
